STATE OF NEW YORK

No. 17

IN ASSEMBLY

JANUARY 17, 1916

Report of the Secretary of State of the Enumeration of the Inhabitants of the State

STATE OF NEW YORK

OFFICE OF THE SECRETARY OF STATE

ALBANY, *January* 15, 1916

To the Legislature of the State of New York:

I have the honor to transmit herewith to the Legislature a report of the enumeration of the inhabitants of the State, taken as of June 1, 1915, as provided by chapter 155 of the Laws of 1915. The report comprises eleven tables as follows:

Table I. Total inhabitants, distinguished as citizens and aliens, by counties.

II. Total inhabitants, distinguished as citizens and aliens, by election districts.

III. Total inhabitants, distinguished as citizens and aliens, by towns and wards, excepting New York City.

IV. Total inhabitants, distinguished as citizens and aliens, of Bronx county, by blocks.

V. Total inhabitants, distinguished as citizens and aliens, of New York county, by blocks.

Table VI. Total inhabitants, distinguished as citizens and aliens, of Kings county, by blocks.

VII. Total inhabitants, distinguished as citizens and aliens, of Buffalo, Lackawanna and Tonawanda, by blocks.

VIII. Total inhabitants, distinguished as citizens and aliens, of Rochester, by blocks.

IX. Total inhabitants, distinguished as citizens and aliens, of the incorporated villages.

X. Total inhabitants, distinguished as citizens and aliens, of the incorporated cities.

XI. Enumeration of Indians residing on Indian reservations.

Three chief enumeration supervisors were appointed — one for Bronx and New York counties, one for Kings and Queens counties and one for Erie county. Offices for these respective supervisory districts were maintained in New York, Brooklyn and Buffalo. These men had immediate charge of the enumeration supervisors and the field work in their respective districts, and the tabulation of the citizens, aliens and inhabitants, by election districts.

An enumeration supervisor was appointed for each assembly district, and these men had immediate charge of the distribution of supplies, and the field work of the enumerators.

The enumeration was taken by election districts as they were constituted territorially on June 1, 1915, representing, in all, 5,651 districts. By chapter 718 of the Laws of 1915, certain territory in the town of Minerva, in Essex county, was annexed to the first election district of the town of Indian Lake, in Hamilton county. The number of inhabitants in this territory has been duly tabulated and credited to the first election district of the town of Indian Lake and subtracted from the town of Minerva. By chapter 527 of the Laws of 1915, certain territory in the second election district of the town of DeWitt, in Onondaga county, was annexed to the third election district of the seventeenth ward of Syracuse, and to the sixth election district of the nineteenth ward of Syracuse. The number of inhabitants in

this annexed territory has been duly credited to the city of Syracuse and subtracted from the second election district of the town of DeWitt. The election districts in Bronx, New York and Kings counties, and the election districts in the cities of Rochester, Buffalo, Lackawanna and Tonawanda, were enumerated by blocks. Nine of the large institutions of the State were enumerated by special enumerators. The Allegany, Cattaraugus, Onondaga, Poospatuck, St. Regis, Shinnecock, Tonawanda and Tuscarora Indian reservations were enumerated separately. The enumerators were required to make their returns in duplicate. The work of comparing and verifying both sets of returns was much greater than the tabulation, but it has had the effect of enhancing accuracy.

At the request of the State Department of Education, the following information was taken by the enumerators of the Indian reservations:

1. Residence (school district and postoffice).
2. Name.
3. Name of mother of children under 21 years of age.
4. Relationship to head of family.
5. Date of birth (day, month and year).
6. Sex.
7. Tribe.
8. Clan.
9. Occupation (trade or profession of, or kind of work done by, each person enumerated).
10. Where educated.
11. Degree of Indian blood.
12. English speaking.
13. Christian or pagan.

All of the other enumerators obtained the following information:

1. Permanent residence (street and house number).
2. Name.
3. Relationship of each person to the head of the family.
4. Color or race.
5. Sex.
6. Age at last birthday.

7. Nativity.
8. Number of years in the United States.
9. Citizen or alien.
10. Occupation.
11. Class of occupation.
12. Permanent residence of inmates of institutions, and place of birth of infants under one year of age.

The information obtained under No. 10 and No. 11 was requested by the State Department of Labor. This department desires a tabulation of the occupation and class of employment of every person in the State. The birthplace of infants under one year of age, shown in No. 12, was requested by the State Department of Health. The department desires this information for the purpose of checking its birth certificates. The State Department of Education requested that we ascertain whether inhabitants giving their occupation as nurses were registered or not registered. We have complied with this request and shown the information under No. 10.

Every enumerator was instructed to enumerate every permanent resident in his enumeration district, although a resident might be sojourning in an educational institution, a hospital, a penal institution, a sanitarium or a government reservation; might be serving in the army or navy; might be traveling, or might have a temporary residence elsewhere. Sojourners' blanks and affidavits were furnished every enumerator for the purpose of obtaining the information required by the law. Sojourners' blanks were sent to families who were temporarily absent from the enumeration district where their permanent place of abode was located. All of the enumerators in New York City and Buffalo were furnished with note books; instructed to make a memoranda of all vacant apartments and residences, and instructed to make repeated calls at such vacant places. If proper information could not be obtained in all cases, the memoranda was returned to the chief enumeration supervisor, and sojourners' blanks were mailed to the heads of all sojourning families who had not been enumerated. These blanks were filled out by the sojourners who received them and mailed direct to the Census Bureau at Albany, where the information was duly entered on the proper schedules. Sojourners' affidavits were obtained by the enumerators from a

responsible person who was acquainted with the necessary facts regarding the sojourners. These affidavits were returned by the enumerators direct to the Census Bureau. Thus the sojourners were counted and credited to the enumeration district where their permanent place of abode was located.

In tabulation, the members of the staff of an institution were not counted in the enumeration district where the institution was located, unless such district was the location of their permanent residence. The inmates of all institutions, excepting convents, homes and orphan asylums, were not tabulated in the enumeration district where such institutions were located, unless they permanently resided in such enumeration district or had no other place of abode. All of the inmates of homes, convents and orphan asylums, were counted in the election districts where such institutions were situated. Transients, guests, tourists, campers, summer residents, etc., who were absent from their permanent place of abode on June 1, 1915, were counted in the district where their permanent place of abode was located, and were not counted in any district where they might have been stopping at a hotel, boarding house, private house, camp, cottage, boat or club. The subtraction of the temporary residents of institutions from the permanent residents has caused a difference between the figures which have heretofore been published and those submitted with this report.

In 1910 New York State was enumerated by the federal authorities as of April 15. All persons, who were not inmates of institutions, were enumerated and tabulated in the districts where their usual places of abode were situated. All of the inmates and staff of nearly every institution were credited to the enumeration districts where the institutions were situated. In comparing the figures of the 1915 census with those of 1910, and especially in comparing the population of cities and villages where the large institutions are situated, the methods of the two enumerations should be considered. It should be remembered that the birth rate is steadily declining and that the population of several cities and villages decreased during the eighteen months preceding the date of the 1915 census, because several industries and commercial enterprises were shut down and several were operating with a reduced force on account of the commercial and

financial conditions caused partly by the European war. From 1901 to 1905, inclusive, 1,204,390 aliens destined to points in New York State, passed through the ports of the United States; and 1,519,122, during the next quinquennial period. Figures are not available for the emigration of aliens residing in New York State for the five-year periods preceding July 1, 1910. The following table shows the immigration of aliens destined to points in New York State through the ports of the United States for the five-year period ending June 30, 1915:

1911	260,278
1912	239,275
1913	330,531
1914	344,663
1915	95,028
	1,269,775

It will be noted that the decrease in immigration for the fiscal year ending June 30, 1915, as compared with the previous year, was 249,635; and that the European war was in progress during eleven months of this period. It is estimated that at least 52 per cent of this number, or 129,710 immigrants, would have settled in New York City. The following table shows the emigration of aliens from points in New York State through the United States ports for the quinquennial period ending June 30, 1915:

1911	71,046
1912	84,533
1913	83,608
1914	76,017
1915	67,016
	382,220

The results of the enumeration show that there were 9,687,744 permanent inhabitants in New York State on June 1, 1915, of which 8,059,515, or 83.2 per cent, were citizens, and 1,628,229, or 16.8 per cent were aliens. The enumeration of 1905 showed a total population of 8,067,308, of which 7,062,988, or 87.6 per cent were citizens, and 1,004,320, or 12.4 per cent were aliens.

These figures show that the number of inhabitants in New York State has increased 20.86 per cent during the past ten years; the number of citizens, 14.1 per cent, and the number of aliens, 62.1 per cent.

New York City has a population of 5,047,221, or 52 per cent of the population of the State, including 3,842,519, or 47.6 per cent of the citizen population of the State, and 1,204,702, or 73.9 per cent of the alien population of the State. The population of the city has increased 25.7 per cent during the past ten years.

On June 22, 1915, the town of Saratoga Springs was incorporated as the city of Saratoga Springs. On June 29, 1915, the city of Mechanicville was incorporated. We are unable to show the population of Mechanicville because the territory which comprises the city does not correspond with the enumeration districts. On January 1, 1916, the town of White Plains, that part of the eighteenth and nineteenth election districts of the town of Greenburg which was within the village of White Plains and a part of the town of New Castle were incorporated into the city of White Plains. On June 1, 1915, that territory which now comprises the city of White Plains had a population of 19,287.

The cities including Saratoga Springs and White Plains had a population of 7,249,602, or 74.8 per cent of the population of the State, including 5,797,284 citizens, or 71.9 per cent of the citizens of the State, and 1,452,318 aliens, or 89.1 per cent of the aliens of the State.

The total number of inhabitants of the incorporated villages, including Saratoga Springs and White Plains, was 864,681, which included 796,522 citizens and 68,159 aliens. The percentage of inhabitants located in the incorporated villages, compared with the figures for the State, was 8.9; of citizens, 9.8, and of aliens, 4.19.

The rural population of the State was 1,607,327, including 1,496,262 citizens, and 111,065 aliens. The percentage of population of the rural districts, compared with the figures for the State, was 16.5; of the citizen population, 18.5; and of the alien population, 6.7.

Respectfully submitted,

FRANCIS M. HUGO,
Secretary of State.
